PRICE TWO CENTS

ROOSEVELT FORCES CAPTURE MAINE DELEGATES

Taft Controls Vermont State Convention and Secures Four Favorable Delegates

Bangor, April 10.—In a convention which lasted 5 1/2 hours, the Roosevelt forces carried Maine today and elected 1 delegate to the national convention at Chicago, giving them a total of 12 from this state. Contrary to expectations, the Roosevelt ticket won in each of the three districts and in the state convention. The other two were elected a week ago in the 1st district.

In the 3d district it had been practically conceded that Taft delegates would be elected but when the votes were counted it was found that the Roosevelt men were elected by a substantial majority. This was the first intimation which the convention received of the strength of the anti-administration movement in Maine. When it was learned that the district had gone to the progressives all hope of winning anything in the state was abandoned and the Taft men proceeded to make the best of the situation.

The convention was the greatest which the Republicans of this state have known since 1904, when in this city, the great contest between Bert M. Pernald of Poland and William T. Cobb of Rockland for the gubernatorial nomination was fought out. In the meantime there have been three Republican conventions, all large but none of the size of this of today.

A strange feature of this convention was that up to noon of today no attention had been given to the fact that six presidential electors must be nominated. No names were mentioned for this place, until last night, when it was casually remarked that H. W. Tyler of Poland would like to go upon the convention ticket. During the morning today this phase of the convention was given more attention and in the convention proper it created one of the interesting diversions.

The delegates are as follows:

Morrill N. Drew, Portland; Aretas E. Stearns, Norway; Charles H. Hichborn, Augusta; Halbert P. Gardner, Patten, delegates-at-large. Jesse M. Libby, Mechanic Falls; William B. Kendall, Bowdoinham, second district. Edward N. Morrill, Skowhegan; Harry E. Merrill, Monmouth, third district. A. F. Irving, Presque Isle; Edward M. Lawrence, Lubec, fourth district.

Alternates were elected as follows, William A. Connellan, Portland; Arthur G. Staples, Lewiston; Charles L. Morange, Ellsworth; J. P. Briggs, at large. Eugene E. Andrews, Norway; George E. Pastorius, Newcastle, second district. D. O. French, Jonesport; L. B. Waldron, Dexter, fourth district.

Montpelier, April 10.—Four delegates at large were elected to support Taft as the Republican state convention held here today. The gathering was the most boisterous and unmanageable of any political convention held in the state in recent years.

The Roosevelt forces fought hard to secure control of the meeting and elect three delegates, but finally put up a split ticket which contained two Taft men and two for Roosevelt. This

The Call of the Umpire Is Heard In the Land As the Baseball Season Once More Is at Hand.

Photo by American Press Association.

last resort was unsuccessful and all four Taft delegates were chosen by a majority of more than 60.

The delegates chosen are United States Senator Carroll S. Page of Hyde Park, Gov. John A. Mead of Rutland, Col. J. Lewis of North Troy. The Roosevelt ticket eliminated

(Continued on Page Five.)

PRESIDENT MAY HALT STRIKE ON ROAD

Commission Proposed to Pass on Engineers' Demands

Washington, April 10.—The controversy between the Eastern railroads and their locomotive engineers has reached an acute stage where, it was learned today, conferences have been held by President Taft and other government officials with officers of the railroads and of the Brotherhood of Locomotive Engineers.

It is understood that both sides have indicated that, if the President or the Interstate Commerce Commission were to appoint a commission such as that which settled the anthracite strike a few years ago, they would be willing to abide by its decision.

Thus far the suggestions for such a commission have been only tentative, but it is understood the President is inclined to regard them with favor.

Neither the railroads nor the engineers appear to be willing to submit the controversy to the Erdman board. One argument advanced by the railroad officials in favor of a special commission is that the subject could receive the fullest publicity.

They urge they have treated the engineers fairly as to wages and hours and conditions of labor and that they cannot, under present conditions, increase wages.

The engineers' officials are understood to have expressed confidence that a commission of unprejudiced persons would agree that their demands were justified.

The conferences between the president and the representatives of both sides are understood to have extended over short intervals of two days, in which all indicated that a serious break could only be averted by careful diplomacy.

The strike vote is now being counted at headquarters of the engineers in New York.

OBITUARY.

Florence A. Leach.
Died in South Eliot, April 10th. Florence A. Leach, aged 24 years, 4 months. The funeral will be held from the home of Nelson Bean So. Eliot, Friday at 2:30 P. M. Friends invited.

ROOSEVELT'S VISIT TO NEW HAMPSHIRE

Will Make Eight Speeches During the Trip

Col. Roosevelt will make eight speeches during his New England trip between Friday afternoon and Sunday morning.

The following is the itinerary: Friday—Leave New York 4 p. m. Arrive at Springfield 7:11 where he dines with and addresses the Commercial Travelers' Association. Public speech in High School hall at 8:15 p. m. Public reception at 10 p. m.

Saturday—Leaves Springfield for Nashua, N. H., via Worcester at 9:25 a. m., and will speak from auto in People's Square, Nashua, at 10, attend a public reception and deliver a speech at Railroad Square at 12:15. He will arrive in Concord 2:25 p. m., speak at the Auditorium at 2:45, and attend a reception at the Eagle Hotel. He will arrive in Manchester 5:25 p. m., and give a short talk in German at Maennerchor hall and speak at Mechanics hall and at Joliet hall. Leaving Manchester for Boston at 10:10 p. m., he will speak at Lowell from the rear end of train at about 11:10 p. m., arriving in Boston about midnight. He will leave Boston for New York 1 a. m.

PRESIDENT TAFT IS FRIENDLY TO PORTSMOUTH NAVY YARD

Senator Gallinger Says Appropriations Will be as Liberal for Portsmouth as Any Navy Yard in the Country.

Editor Herald:

Dear Sir:—There has been so much discussion recently concerning the Portsmouth Navy Yard that I feel compelled to state certain facts concerning it. For instance, I noticed in a recent issue of your paper that Mr. Henry Turrey, acting in behalf of the candidacy of Colonel Roosevelt, gave a long list of appropriations that were made for the Yard during the seven years that Colonel Roosevelt was President, giving him credit for those appropriations. That contention is so absurd as scarcely to need notice, yet I will suggest that the list included all the current appropriations for the administration of the Yard, and also included the large appropriation which I was personally largely instrumental in securing, such as the appropriation for the removal of Henderson's Point. All that the President did was to sign the bills, and as the amounts were carried in appropriation bills which covered all the needs of the navy the country over the President could not do otherwise than affix his signature to them. I have never asked for any special recognition for what I have done for the Portsmouth Navy Yard and yet an examination will show that there has not been a naval appropriation bill passed during the last fifteen years that did not secure some important addition to it by way of amendments offered in the Senate, and my colleagues have been equally diligent in doing their part to care for this great workshop.

Criticism has also been made, in certain quarters that we are not getting our full share of work at the Yard. The record will show that there are at present several hundred more employees on the Yard than there were a year ago, which indicates that those of us here in Washington have not been indifferent to the welfare of Portsmouth, and that the Navy Department has responded to our requests. Under date of April 4th, only five days ago, the Secretary of the Navy addressed the following letter to the President of the United States:

My dear Mr. President: With reference to the work at the Portsmouth Navy Yard I beg leave to state that on January 19th I assigned the following vessels to Portsmouth as their home yard, for which repairs when necessary will be made: Montana, Nashville, Don Juan de Austria, North Carolina, Paducah, Eagle, Tennessee, Petrel, Dubouque, Washington, Wheeling, Hannibal, Copher, Patapsco, Sterling, Penacook, South-ory, and Topeka.

The Nashville was formerly at Boston, but has been assigned to Portsmouth. The cruiser North Carolina will probably be at Portsmouth for overhauling about the middle of April, and the cruiser Washington the middle of May. This summer the Nashville, Wheeling, and Petrel will be at Portsmouth as well as the Paducah and the Eagle.

All vessels are now more self-sustaining than formerly, and many minor repairs are made while at sea thus to some extent reducing the

KITTERY POINT

What Is Happening in the Harbor Town

The Good Luck Whist club was pleasantly entertained on Wednesday afternoon by Mrs. Warren Johnson. Prizes were awarded in the following order: First, Mrs. Amos Amos; second, Mrs. Oscar Clark; third, Mrs. Fred Chase. The club will next be entertained by Mrs. Luther Lewis.

The schooner Henrietta Simmons finished discharging her cargo on coal at Frisbee's wharf on Wednesday, and will sail for Rockland, Me. Mrs. George Gunnison continues to improve in health, after her recent operation at the Portsmouth hospital.

The S. V. Fancy Work club will meet at the home of Miss Gussie Phillips on Friday evening.

Clark Wyman continues to improve at the Lynn, Mass. hospital.

Charles T. Tobey has leased the store of Wilton P. Bray, and will henceforth conduct the business. Mr. Bray will shortly move to Kingston, N. H.

Capt. Thomas Crawley of Gloucester, formerly of this place, was a visitor in town on Wednesday. Capt. Crawley denies the current report that his fishing sloop *Mystic Belle* was wrecked by the heavy ice in a dock at Gloucester, during the winter. While seriously injured, the skipper affirms that the *Mystic Belle* will soon be seen as of yore, at anchor in Kittery Cove.

Dwight Frisbee has concluded his duties in the employ of Frisbee Brothers.

Mrs. Horace Mitchell, who has been confined to the house by illness is able to be about again.

Lewis J. Coty is soon to move his family to Sanford, Me.

Thomas Tobey has returned to this place from Gloucester, where he has been fishing during the winter.

Ernest Jackson of Kittery is engaged in lobstering, making his headquarters on Gooseberry Island, in the lower harbor.

Morrill Norton will soon move his family into the house of Leonard McCloud.

Mrs. Ellen Billings has returned from Portland, where she passed the winter with her daughter.

Dr. Eastman of Portsmouth was a visitor in town on Wednesday.

"LOVE WILL FIND THE WAY."

You Should See This Great Photo-Play at Music Hall.

"Love Will Find the Way" was the subject of a photoplay shown at Music Hall, Wednesday evening was full of life and interesting situations.

The girl in the case is in love with a poor young man, but her father wants her to marry another one who is rich. The father finally insists, and the poor young man is discharged from her father's office and secures a position on the railroad. The rich man, the girl and father go for an auto ride, the auto breaks down near where the other man is working. He discovers the girl, takes her away on the hand car.

CHICAGO CUB'S FAMOUS TRIO ONCE MORE IN GREAT FORM

Chicago, April 11.—Those experts who predict that the Chicago Cubs will go to pieces this season are going to be fooled. So says Manager Frank Chance and his players. With Evers and Tinker back at the old stand doing their combination work and Eddie Lennox to brace to third base, our infield is far better than in 1911, the outfield shows no signs of weakening, and our old pitchers should be as good as ever. Chance was in bad shape. Evers was "the peerless leader." Judging out of the game practically all year from the practice games, it looks as if the Cub machine is working as smoothly as it ever did. In the descriptions of several games the Cubs should be right there at the purchase "Tinker to Evers to Chance" finish. The outfield is the same as has appeared quite frequently. This ever, while the pitching staff, while it indicates that the baseball vehicle not any too strong, is better than which has won four pennants and last year's Chance has been for two world's championships is still in tune in picking up a couple of the fight. Last season the Cub machine promising youngsters.

There is an interesting race between the hand car and the automobile. Finally the couple come across a minister at railroad crossing take him on and proceed on their way while the minister is performing the marriage ceremony. They are then overtaken by the automobile and after a storm of protest the father forgives them. His Father's Son, is another picture that displays much good acting and is very interesting. Other pictures included The Spanish Cavalier and Laughing Gas.

OFFICERS TO BE INSTALLED.

The newly elected officers of the

CHILDREN AFFECTED.

By Mother's Food and Drink.

Many babies have been launched into life with constitutions weakened by disease taken in with their mother's milk. Mothers cannot be too careful as to the food they use while nursing their babies. The experience of a Kansas City mother is a case in point: "I was a great coffee drinker from a child, and thought I could not do without it. But I found, at last, I was doing me harm. For years I had been troubled with dizziness, spots before my eyes and pain in my heart, to which was added, two years later, a chronic sour stomach. "The baby was born seven months ago, and almost from the beginning, she too, suffered from sour stomach. She was taking it from me! "In my distress I consulted a friend of more experience and she told me to quit coffee; that coffee did not make good milk. I have since ascertained that it really dries up the milk. "So I quit coffee and tried tea and at last cured. But they did not agree with me. Then I turned to Postum with happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of my milk. "My husband then quit coffee and used Postum and quickly got well of the dyspepsia with which he had been troubled. I no longer suffer from dizziness, blind spells, pain in my heart or sour stomach. "Now we all drink Postum from my husband to my seven months' old baby. It has proved to be the best hot drink we have ever used. We would not give up Postum for the best coffee we ever drank." Name given by Postum Co., Battle Creek, Mich. Get the little book, "The Road Well," in place.

It Makes A Great Difference

In the health and strength of a nursing baby if the mother uses

POSTUM

ELIOT ECHOES

TO TENDER RECEPTION.

Business Men of York Will Honor Country Attorney Richardson.

The business men of York will show their confidence in County Attorney Asa Richardson of Kennebec by tendering him a public reception some time next week. They claim that he has administered the affairs of the county in an able manner and that the action of the Maine legislature was made a purely partisan measure.

PEOPLE'S OPINIONS

Feed for a Billy Goat.

To the Editor of the Herald:— Seeing the notice in the paper saying that the ash teams would take nothing except ashes, I would like to ask the Board of Public Works what the city teams are for, if not to take all rubbish away from the houses? What do they want people to do, run to the dump with every tin can and bottle for them? or pile them up in their back yards to breed disease? The people might possibly keep a "Billy Goat," or two to feed the cans to. What are we paying taxes for anyway?

Signed,
A Reader of the Herald

ELIOT GOT A GOOD SUM.

The town of Eliot received a neat little sum from the Eastern Steamship company, in taxes for the past year. The company was registered at Eliot, through the influence of the late Ex-Gov. Hill, and last year the town received \$12,000 in taxes. This is a big sum for the town and it will permit much needed improvements on the roads.

MINE EXPLOSION.

Nanaimo, B. C., April 10.—A mine explosion at Departure Bay, Vancouver Island, this morning, is reported to have killed the superintendent and created havoc in the workings.

BRILLIANT LECTURE ON THE DRAMA

"The Drama of Yesterday and Tomorrow," was the subject of a very brilliant address before the Grafton Club, by Beatrice Forbes-Robertson, the noted English actress.

There was a large and representative audience present and they thoroughly enjoyed the lecture. Miss Robertson is a brilliant talker, and she has a fine command of the subject, with a vast knowledge of the theatrical world. She is a playwright as well as an actress. She gave a brief history of drama, and severely criticised the drama of today as a whole, but predicted a radical elevation of the stage to where it belongs.

RAILROAD NOTES

The appeal of American Express company from the order of the railroad commission in 1910, forbidding an increase in the minimum express rates in New Hampshire is on trial before Chief Justice Wallace in superior court, Manchester.

The engine of a locomotive on the west-bound freight No. 320 had a hot box on one of the drivers on its arrival here today and had to be sent to the round house for repairs causing a short delay to the train.

Several improvements to the road bed on the Plains loop of the Portsmouth Electric Railway are being made by section foreman Smart and his crew.

Aviator Arch Freeman with a passenger in his biplane, astonished residents of Revere, Sagun and Lynn yesterday by racing a Boston & Maine express train.

The young aviator, who is a new birdman in this vicinity, proved that he flying machine is a speedier vehicle than the mogul type of engine. Freeman thrilled hundreds of people by his daring. He dipped and circled his biplane over the moving train with almost ease, apparently.

WEATHER FORECAST.

Washington, April 10.—Forecast for New England:

Fair Thursday and probably Friday; moderate temperature; light west winds.

Local forecast: Fair Thursday and probably Friday, not much change in temperatures; light west winds.

The campaign for the cleaning up the debt of the Y. M. C. A. is meeting with considerable enthusiasm and there is very little doubt but what it will be cleared up in a short time.

STEAMER ONTARIO FIRE SWEEP DURING GALE

Montank Point, L. I., April 10.—Wedged hard and fast on a reef, 600 feet from the shore, the steamship Ontario, which was run on the rocks by her captain early Monday morning, lies today a flame-swept and battered hulk, with a heavy surging her aft and threatening to break her to pieces at any moment.

Every pound of her cargo of cotton, resin, turpentine and whiskey, except what was lightened from her yesterday, went up in smoke in the gale last night. The decks, houses and woodwork of the entire interior were consumed, leaving only the steel hull, blistered and smudged, with the bow six feet above low tide and the stern almost buried in the water.

The entire crew of 40 were rescued. The two men reported missing last night were taken to safety.

A wireless message from the revenue cutter Acushnet announced today that the two men reported missing from the Ontario had been picked up in the ship's boat and taken aboard the cutter.

"No further assistance needed as nothing can be done," the message read. "We leave for New Bedford."

HULK SEEMS DOOMED.

New London, Conn., April 10.—In conversation with the wireless station at 8:30 a. m. that the steamship Ontario is all ablaze, her decks and superstructure having caught fire during night, and it looks as if the boat was doomed.

The revenue cutter Acushnet and wrecking vessels are standing by, but unable to render any assistance, owing to the heat. The wind has shifted to the northwest, with a heavy undertow. The Ontario's crew left at 9:45 a. m. for Providence.

They were here over night. It is learned that the revenue cutter Acushnet is on her way to New Bedford with Capt. Bond and two of the crew, who were missing on board.

TELEGRAPH BRIEFS

Lowell, Mass., April 10.—Two meetings of prominent Lowell mill officials held within two days, will have an important bearing on the strike situation here at an early time, it is believed. The meetings were held in Boston, and among those present were mill treasurers and Lowell agents. It is the impression in Lowell mill circles that a 10 per cent increase will shortly be announced.

Lawrence, Mass., April 10.—About

HOW TO TREAT PIMPLES

It is really remarkable how Cadum, the new remedy, causes pimples to disappear. Bad cases are frequently relieved in a few days. Cadum causes pimples to dry up and all off leaving the skin soft and smooth. Pimples are a disease of the skin, and are not caused by bad food, as many people suppose. Cadum helps these disfiguring blemishes because it is applied direct to the trouble. It is an antiseptic and prevents infection from disease germs. Cadum should be immediately applied to a pimple, scratch, sore or wound, as neglect of these small troubles sometimes proves serious. At all druggists, 11c. & 25c.

40 of the 80 employees of the spinning and cambing departments of the Washington mills who struck yesterday because of dissatisfaction over working conditions returned to their looms today.

Lewiston, Me., April 10.—The Maine Association of Optometrists meets here this afternoon and evening. This evening, the principal address will be given by George H. Brown of Manchester, N. H., president of the New Hampshire state board.

Philadelphia, April 10.—Miners and operators met in joint conference here today and made another attempt to agree upon a wage scale to take the place of the one that expired on March 31, and send back to work the 175,000 idle anthracite mine workers. The representatives of the men entered the conference with expectations that the operators would concede them some of the demands, including but for a wage increase, and the employers were also hopeful that difficulties would be speedily overcome.

Washington, April 10.—The weather bureau today announced that with the exception of a break in the levee on Tuesday at Wilsons, Ark., about

11 miles below Osceola, there had been no particular change in the flood situation along the Mississippi river.

AN EGG WITHIN AN EGG.

Franklin, April 10.—Mrs. Ellen J. Mason of Scarborough has a hen that lays two eggs at once. Yesterday Mrs. Mason broke an egg while cooking and discovered what she supposed to be a double yolk egg, but upon closer examination it was found that another complete egg was enclosed inside the larger one. Both eggs were complete with whites, yolks and shells.

Mrs. Mason is a veteran poultry keeper, eggs being one of her main farm products, and she has frequently beaten the record for winter laying.

WILL BE HELD ON APRIL 23.

The Republican committees of the several wards held meetings on Tuesday evening and decided to hold caucuses on April 23, to choose delegates to the state and district conventions.

Matinee daily at Music Hall, starting at 2:15 p. m.

BOWLING

John Mitchell High Man in Elimination Round--Some Stars Defeat the Still Ales.

Some Stars Win a Game. Griffin, 85 75 69—221
437 363 360 1160

Two teams from the Portsmouth Brewing company rolled at the 30's alleys on Wednesday evening, and the Some Stars defeated the Still Ales by 48 pins.

The score:

Some Stars.			
Cragen,	85	75	79—239
Marden,	77	69	75—221
Foley,	89	82	68—239
Keefe,	75	85	91—251
Connors,	73	98	77—248
399 419 390 1208			
Still Ales.			
Phaliv,	77	72	83—232
Crowley,	102	76	74—252
Moyahun,	76	69	58—203
Driscoll,	77	71	76—224

ELIMINATION ROUNDS.

The third in the elimination rounds for the city championship at the Arcade alleys was rolled on Wednesday evening and there were some excellent scores turned in. At least four of the crowd will probably qualify in the twenty-four who will continue on in match play next week.

John Mitchell was hitting the pins in fine shape and starting with 128, he continued his last two strings in the nineties and turned in a total of 319. Fisher was second man with 312 and Welsh got over the three century mark also.

The summary:

J. Mitchell,	128	93	98—319
Fisher,	118	96	93—312
Welsh,	88	118	101—307
Bishop,	92	92	96—280
Eldridge,	81	99	91—271
Hett,	91	96	77—267
Outfield,	85	88	90—263
Naylor,	86	80	93—259
Crompton,	98	81	78—257
Rowell,	92	79	81—252

THE STEARNS & FOSTER MATTRESS

(NAME ON EVERY GENUINE MATTRESS)

THESE BUOYANT LAYERS OF COTTON STANDING NEARLY THREE FEET HIGH ARE COMPRESSED TO ONE SIXTH THEIR ORIGINAL HEIGHT AND ENCASED IN THE TICKING PRODUCING A MATTRESS OF UNUSUAL SPRINGINESS COMFORT AND DURABILITY

You will say—

"I never knew a Mattress could be so Comfortable."

That's just what satisfied users of Stearns & Foster Mattresses are saying.

You owe it to yourself to have a Stearns & Foster in your home and enjoy rest that is Comfortable, Refreshing, Healthful. A good night's rest on a Stearns & Foster Mattress costs too little for you to put up longer with that old uncomfortable mattress. Stearns & Foster Mattresses are made of Clean, Sanitary Cotton; felted into hundreds of little webs, forming the many layers of Springy, Buoyant Cotton standing nearly three feet high. These layers are then laid by hand and compressed to ONE-SIXTH their original height and encased in the ticking; then tufted to just the proper tension, so as to be soft, yet firm, half yielding to your figure, but supporting it in perfect relaxation.

Come in today and ask us to show you a Stearns & Foster Mattress. We'll gladly do it. A positive guarantee on every mattress bearing the Stearns & Foster name. A most Comfortable and Economical Mattress to buy.

KITTERY LETTER

Breezy Items from Village
Across the River

Kittery, April 11

The Phobes gave their first paid social last evening in the vestry of the Second Christian and it proved to be a great success, both financially and otherwise. The supper commenced at 5 o'clock and continued until 7:30 and it was necessary to twice reset the tables in order to accommodate the crowd. The menu comprised creamed chicken served from chafing dishes, all kinds of salads, rolls, pies, cake, puddings, coffee and fruit. The vestry was prettily decorated in yellow and white crepe paper, green boughs, potted plants and cut flowers, the latter being the gift of a Portsmouth florist. As soon as the tables could be cleared from the floor of the main vestry the following excellent program was given:

Violin Solo Robert Ellery
Accompanist, Mrs. Hobbs.
Vocal Solo Charles Gray
Accompanist, Mrs. Hobbs.
Readings Mrs. Richard Rogers
Piano Duet
Mrs. Hobbs, Miss Florence Marshall
Vocal Solo Mr. Gray
Readings Mrs. Elmer Burnham
Vocal Solo Miss Charlotte Bickford
Accompanist, Mrs. Spinnery
Each number was heartily applauded and enjoyed.

The affair was in general charge of Mrs. Lina Hobbs, Mrs. Lizzie Dunbar, and Mrs. Anna Culbertson, who were assisted by Mrs. Anna Nafino, Miss May Brown, Mrs. Mabel Burnham, Mrs. Ruth Pruett, Mrs. Bessie Locke, Mrs. Lila Smith, Mrs. Bernice Locke, Miss Francis Gibson, Mrs. Mabel Gerry, Mrs. Georgie Seawards, Mrs. Cicely Caswell, Miss Mildred Donnell, Mrs. Florence Ford, Miss Char-

"TO THEM THAT HATH"

A Short Sermon to Fat Folks.

"To them that hath shall be given" is a sentence that applies to fat people very neatly. It is common knowledge that once a human being begins to fatten up, to what they have already is added more, that they want until finally a stage is reached where reduction must be made or decided disadvantage results.

Then comes forward the ages-old query, "Reduce—but how?" To the unimpaired nothing suggests itself, but the (to them) twin evils—less eating—more activity. They contemplate a more or less lengthy siege of dieting and exercising. So it may be said safely that every man or woman in the land now undergoing the fat-reducing process has his or her head fixed dubiously on that not far distant day when he or she will have to don the "ashes and sackcloth of reduction."

This is not an enlivening prospect, and so it is with considerable satisfaction that we announce the emancipation of the fat. Nowadays one may reduce much or little, a pound a day if desired, or hold their fat in check, absolutely stationary without doing a tap of exercise missing a single meal, doing a particle of harm or causing a solitary wrinkle. All that's required, as hundreds testify, is the taking after meals and at bedtime of one Marmola Prescription Tablet, which tablets are sold by the Marmola Co., Farmer Bldg., Detroit, Mich., or any good druggist, at the uniform price of 75 cents, this sum being accepted for a case of tablets so well and generously filled that even one produces desirable results.

CASCARETS INSURE INSIDE CLEANLINESS

The millions of Cascaret users never have Headache, Constipation, Biliousness or Sick Stomach.

It is more necessary that you keep your Bowels, Liver and Stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the decomposed waste matter and poison in the intestines and bowels.

No odds, how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

Miss Bickford, Mrs. Nettie Bowden, Miss Geneva Guntill, Miss Marion Whitcomb, Miss Lou Newson, and others. The Phobes received many compliments on the manner in which they carried out the entire evening's program, and extend thanks to all who so generously contributed food, and the excellent talent, to make it a success it was.

Mr. George Damon and daughter, Miss Nellie are in Melrose today to attend the wedding of Miss Gertrude Damon to Charles Cutter.

York Rebekah Lodge meets this evening and the meeting will open at 7:30 sharp in order to complete the business session early to give the gentlemen a chance to entertain the ladies. They have prepared an excellent program.

Mrs. Joseph Legree is visiting at her former home in Hartford, Conn. A well attended dance was given in Wentworth hall Wednesday evening by the Catholic club.

Tomorrow evening an invitation dance will be given in Wentworth hall.

The wedding took place today in Melrose, Mass., of Miss M. Gertrude Damon, daughter of Mr. George Damon and the late Mrs. Annie Damon of Government street, to Mr. Charles H. Cutter of Somerville. The ceremony was performed at the home of George E. Damon, brother of the bride-elect.

Miss Damon has for several years been connected with the New England Constructional company, Boston, as an efficient stenographer. Mr. Cutter was formerly in the electrical business for himself before going out West. Since his return East he has been employed in Melrose. After their wedding journey they will take residence in Madbury, N. H. The best wishes of hosts of friends in Kittery go with them in their new relation.

G. L. Trefethen, plumbing and heating, water pipe and fittings, faucets, valves, etc., conductor pipe and fittings, Kittery, Maine.

TO CURE A COLIC IN ONE DAY.
Take LAXATIVE BROMO quinine tablets. Druggists refund money if it fails to cure. E. W. GROVER'S signature is on each box, 25c.

RAILROAD NOTES.

Newburyport people have asked Superintendent Ray of the Portland Division, Boston & Maine for a base ball train from that city to Boston to leave that city shortly after dinner hour for Boston to accommodate those who wish to witness games.

Mr. Ray thinks the matter a fair proposition, and stated that the officials of the road would go over the schedule this week, the superintendent agreeing to write the petitioners the result of their decision.

WANTED.

Reliable young man to travel distributing samples, placing signs, etc. An excellent opportunity for the right party with the assurance of a steady position. Salary to start with \$40.00 a month and expenses. Meet me at Boardman & Norton between 12 and 1, or 5 and 6 p. m.

OBSEQUIES.

Mrs. Mary R. Putnam.
The funeral of Mrs. Mary R. Putnam was held from the Unitarian Chapel on Court Street, today at 2:30 p. m. Rev. Alfred Gooding officiating. The remains will be taken to Haverhill, N. H.

ROOSEVELT FORCES CAPTURE MAINE DELEGATES

(Continued from Page 1)

Gov. Mead and Col Emery and put in their places Henry L. Bailon of Chester who was chairman for the Roosevelt party at the second district convention here yesterday, and Dr. Jesse E. Thompson of Rutland.

The Roosevelt forces succeeded in voting down a resolution to instruct the delegates but this will have no effect, as the men who go to Chicago are well known Taft supporters, and will stick by the President. This will give Taft six delegates from Vermont and Roosevelt two, as the colonel won the second district convention here yesterday.

Page and Lewis were elected unanimously today. Mead had 270 votes to Thompson's 305 and Estey won from Bailon, 370 to 206.

These alternates were chosen: Lieut. Gov. L. P. Slack of St. Johnsbury, Newman K. Chaffee of Rutland, Joseph T. Stearns of Burlington and O. L. Martin of Plainfield.

NOTICE.

The Selectmen of Newington will be at the Town Hall on Saturday, April 13th, from 1 to 4:30 p. m., for the purpose of receiving inventories and conferring with property owners.

C. M. de Richmond, Chairman.

the execution of its plans for more head room under the bridges by which Boston & Maine Railroad crosses Charles River, just outside the station. Were the Boston & Maine to raise those bridges in accordance with the War Department specifications it probably would have to run its trains into the North Station on a second-story level. Hence when the New Haven management took up this broad question of railroad developments with Governor Foss and the port directors, the proposition was made for the removal of the North Station back to the other side of Charles River, the Somerville side, so that the tunnel which is to run under Boston would also run under Charles River. But instead of leaving the passengers on the Somerville side of the river, the railroad would carry them in the tunnel to a new underground passenger station in the vicinity of Faneuil Hall, which, in consequence, would become a most important traffic centre for Boston.

The new project involves also the construction of a broad surface traffic road through Boston, directly over the tunnel, made possible by the latest constitutional amendment that gives the city of Boston the right to take land in excess of what is actually needed for the tunnel and road space. Such a substantial portion of the cost of this traffic road would fall to the railroad company that its construction would become an attractive investment by the city. An extension of Dorchester avenue, from South Station, would provide a serviceable alignment for the tunnel to enter South Station.

Dissolution of the Holding Company was practically agreed upon several months ago, as that company was merely a device to meet an emergency which long since has expired. Neither Mr. Mellen nor Mr. Byrnes desired the continuation of the company, and Governor Foss declared against it in his inauspicious address.

Electrification of the railroads is to extend, generally speaking, ten miles out from Boston, though it will reach much farther in some instances. On the Boston & Maine system it may reach to Lexington on one division, to Winchester, and possibly to Wilmington, and Stoneham on another division, to Wakefield and to Lynn, and perhaps out to Swampscott, the purpose being to touch junction points. Plans have been studied to Waltham on the Fitchburg division. South of Boston electrification to Braintree, to Readville and Needham Junction are provided in some of the plans for the New Haven road. The Boston & Albany, which is not a party to the proposed legislation, undoubtedly would have to come into line and electrify as far as the Newtons of Framingham.

In their logical course of development the propositions call for the completion of the tunnel under Boston first, within three or four years, and the electrification soon after ward.

POPULAR SONG WRITERS AND THE FORTUNES THEY MADE.

F. A. Mills one of the popular song writers of the country, came to New York city from Detroit fifteen years ago, with two songs in his pocket. Today he owns one of the largest Publishing Houses in New York, and is one of the millionaire property holders of Montclair, N. J. He published the two songs, "Rastus on Parade," "Happy Days in Dixie." They immediately caught the town. He followed this up by "Georgia Camp Meeting," and sold nearly three million copies before the rage for Mills' style of songs waned.

E. T. Paul came to New York from Norfolk, Virginia, with a March entitled "The Charlot Race," and little else. He had however faith in his composition, and invested what little money he had in publishing it. The result was that he won out. Today the piece published nearly sixteen years ago is one of the Standard sellers, and has sold over three million copies. This piece with about ten others of his own has made him a very wealthy man, and now in the prime of life, is touring the world, while "The Charlot Race March" pays all the expenses.

Charles K. Harris, as is well known wrote and himself published "After the Ball," which all the big publishers turned down, and today he is known as the Millionaire Song Writer, who has written more than one hundred successful ballads, but unfortunately for new composers will not publish a song written by any other composer.

Jerome and Schwartz were very popular song writers, and made a lot of money for themselves, and their publishers. Three months ago they started in business for themselves, and today have three of the biggest hits in the market.

Jerome H. Hemick was a rich

Danderine

Grows hair and we can prove it

Hair Becomes Soft, Fluffy, Lustrous and Beautiful Immediately After a Danderine Hair Cleanse

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

A little Danderine now will immediately double the beauty of your hair—No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Try as you will after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few week's use when you will actually see new hair, fine and downy at first—yes—but really new hair—sprouting all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its life-producing properties cause the hair to grow abundantly long, strong and beautiful.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it, if you will just try a little Danderine. Real surprise awaits you.

banker in Detroit when he took an interest in Clara Kummer's instrumental gem, "Dance of the Brownies" published it just for fun, and laid the foundation for the largest Music Publishing business in the world.

The Witmark boys started life with a little printing press. One of the boys wrote a song, and the three boys aided by their father clipped in and published it. Today they are counted to be the richest publishers in the business, barring none.

Jos. W. Stern and Eddy Marks were both traveling men, and while on the road wrote the once famous song "The Little Lost Child." They published it themselves, and today own over forty large apartment houses in New York, purchased with the money made out of the Music Publishing business.

Ted Snyder, Irving Berlin, Harry Von Tilzer, Teddy Morse, Fred Hell, Will Rossiter all started in business with their own songs, and are now famous publishers.

Lea Feist was a corset salesman and as a side issue published "Smoky Smoke." It proved such a success that he dropped the corset business, and now sell millions of copies of music every month.

The writers of songs nowadays are all well to do and such writers as Ed Madden, Eddie Ball, William & Vansteyne, Percy Wenrich, Vicent Bryan, Karl Hosna, Anita Owen, Edgar Seldon, Herbert Ingham, Joseph Howard, Geo. Meyers, Billy Jerome, Al Von Tilzer, Brown & Ayer, Al Gaudule Arthur Lamb, Al Bryan, have incomes varying from \$2000 to \$15,000 annually accruing from royalties. Most of these writers are under contracts to the big publishing houses, who print such of their songs as are demonstrated worthy.

As a rule they write more than the big publisher can put out and it is therefore a difficult matter for a new song writer to have a song accepted, or even reviewed by a large publisher.

There are quite a number of fake publishers who hold out false inducements to beginners or amateur writers, and for a certain amount of money print their songs. Of course they obtain no results, and the time and money is lost. There are a few good publishers however who are good health.

bringing new writers to the front. The Globe Music Co. of New York one of the few firms who are really helping new writers and composers by methods thoroughly original, businesslike.

Song writers are born, not made in colleges, but still like other professions it requires time and money to get a start, but one writer has made what is called a "hit"—his work is in demand, and he can command his own price and royalties. A popular song will sell from 50,000 to a million copies, and a royalty of two cents per copy means a large income yearly.

The average "hit" song writer can write at least twenty songs a year, of which most will sell from 5,000 to 100,000 copies, and one or two of them prove hits, his fortune is made.

P. A. C. LADIES' NIGHT.

Club Members Will Provide Fine Entertainment for Ladies.

The ladies' night of the Portsmouth Athletic Club will be held this evening, and a fine time is promised. The first of the evening will be given over to cards and music at the club house, and a lunch will be served. At 10.15 the guests will adjourn to Police hall, where a program of dancing and moving pictures will be given until twelve o'clock.

COMMISSION SUGGESTED.

Philadelphia, April 10.—Anthracite coal operators at their conference with the miners' representatives this afternoon proposed that an anthracite coal strike commission be convened to take up the situation in the anthracite region with a view of arranging a new working agreement. The proposition will be held in abeyance for the present.

Dyspepsia is America's cure. But dyspepsia is every time. It drives out impure food, tones the stomach, restores money is lost. There are a few good perfect digestion, normal weight, and reliable publishers however who are good health.

ANOTHER BANK OFFICIAL GOES WRONG

Stamford, Conn., April 10.—Major William H. Holly, bookkeeper of the Stamford Savings Bank, has been arrested, charged with defalcation of the bank's funds to an amount between \$19,000 and \$15,000. The arrest was made last night, but the authorities did not let the fact become known until today.

The officials of the Stamford Savings Bank, it was stated today, had been aware for some time that there was a shortage in the bank's account and had employed a firm of experts to go over the books and locate it. Holly was at work in the bank yesterday as usual. When the experts began work on the books, it was given out by the bank officials that the step was preparatory to the installing of a new bookkeeping system, following the appointment a short time before of Howard S. Bozard as treasurer. The president of the bank is Charles H. Lounsbury, a prominent business man, and the vice president is Albert G. Weed, a retired merchant and large real estate owner.

The following statement was issued today over the signature of Bank Commissioner Norris S. Lippitt:

"I can assure the people of Stamford that they should not feel uneasy over the trouble in the Stamford Savings Bank. The defalcation is small and the bank cannot possibly lose over \$10,000. The bank has a surplus of over \$400,000 and can meet the unfortunate matter easily. I have thoroughly audited all the other banks of the city and find them in excellent condition."

The Stamford Savings bank is one of the oldest institutions in the State. It was established in 1851.

William H. Holly had been connected with the Stamford Savings Bank since 1889, for the greater part of that time as chief bookkeeper. He is a member of one of Stamford's oldest families and was formerly prominent in the Connecticut National Guard, having been inspector of small arms practice on the staff of the brigadier general until the reorganization of the National Guard in the days of the Spanish War. He is unmarried.

Maj. Holly was arraigned in the City Court, appearing without counsel. The complaint set forth that he had taken \$14,725 of the bank's funds. A demurrer was entered which the court overruled and fixed bail at \$15,000. Later it was agreed that a bond of \$10,000 would be accepted. Maj. Holly appeared dejected. He said very little when conversed with by the court officers. He spent most of the night in the lock-up and was taken back there pending arrangements for furnishing a bond.

While the complaint set forth the alleged embezzlement of \$14,725, it

The Tea Kettle Bath

—isn't the most agreeable way to take a bath is it? There's another, a better way and it's just as cheap.

A Gas Water Heater

will give you enough hot water for a bath in 20 minutes, for one cent.

See the Gas Co.

was later stated, and confirmed by Commissioner Lippitt, that the total losses as shown by the books are \$35,000, but considerable of this, as a means of added counts, is barred by the statute of limitations.

Business at the bank went on as usual this morning.

COUNTING ENGINEERS' VOTES.

Results Will be Known Today if Strike is to be Declared.

New York, April 10.—Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, and fifty lieutenants, met here today to count the votes of 25,000 engineers on 48 eastern railroads, which will determine whether the organization's officers may call a strike should further negotiations with the railroads for increased pay fail.

It was Mr. Stone's intention originally to announce today the result of the vote. The labor involved in counting the ballots and a delay on the part of the organization's officers in reaching New York, it was believed, would defer the announcement until tomorrow. As soon as the result is known, Mr. Stone said, the general managers of the railroads would be notified. Should a strike be authorized, he said, an attempt will be made to resume negotiations with the railroads with a view to avoid the calling of a strike. The demands of the engineers, which, it is estimated, call for an average increase of 15 per cent, were rejected recently. Mr. Stone declined to forecast the result of the vote.

SHUT DOWN POSSIBLE.

Report in Manchester, N. H., That the Branch of American Locomotive Company May Close.

Manchester, N. H., April 10.—There is a strong probability that the Manchester branch of the American Locomotive Company carrying on at the present time 350 hands on its payroll, will shortly close down permanently. For several years it has been apparent to the management of the company that it could turn out locomotives and other products of the company at less cost in its other shops, because of their being nearer to the sources of supply with reference to iron and coal and because of their being provided with better equipment than the Manchester plant.

Within the last few days the employees of the local concern have shown a tendency to unionize and make a demand for higher wages. Monday the unwelcome news came out that the local plant, as soon as it runs out of work now on hand, would close down. It is said that had the employees been members of the union and gone out when the company's hands did in other sections of the country the plant would have closed down permanently several months ago.

The local works were first started as a private enterprise in 1853, and have at times employed as many as 600 and 800 hands. Arthur M. White is superintendent.

Miss Annie Chalmers of Portland is visiting Miss Florence Rand of Wellington street.

IMPATIENCE CALLED A SIN

Worse Than Folly, Inasmuch as It Does Harm to Others Besides the Unfortunate Possessor.

The word patience is not mentioned in the Old Testament. It seems to have come with the Christian religion and to have taken its place among the virtues after Christ came. This is strange, for impatience is one of the implacable enemies of man's peace and joy. It is the easiest sin there is. It is always ready to break out in revolt against the peace and dignity of the individual.

It is mighty unfortunate for a person to be easily afflicted with impatience. It is a real suffering. It is a bad spirit that grabs a man and squeezes the reason out of him. A man is sort of crazy who is impatient. He lets go of faith in God and the logic of events and gets mad at both. It does no good to anybody, and nice cases out of ten a man is ashamed of himself when he lets this sin get the better of him.

As proof that impatience is downright wickedness, notice how a victim of it will swear, insult his friend, scold his wife, kick the cat, slam down whatever is in his hand, and make everybody around him as miserable as himself. Such are the evil associations of impatience.—Ohio State Journal.

BOOBY BIRD IS WELL NAMED

Most Stupid of All Feathered Creatures, Though Its Eggs Are Pronounced Good.

Doubtless the term "booby," signifying a stupid creature, has been misapplied in some cases, but it correctly describes several varieties of birds of the gannet species common to certain islands of the Caribbean sea.

The booby is a small water fowl, and in spring and summer millions of its kind flock to seven little islands some thirty-five miles southeast of Jamaica. The booby bird is so called because of its stupidity, since it has absolutely no fear of man. The islands frequented by these birds are leased to private individuals who derive a large income from the collection and sale of booby eggs. Nearly 60,000 dozen booby eggs were taken from the seven little islands to Jamaica last year, where they were sold at the rate of about \$3.25 for a case containing 500.

An American consular officer familiar with the subject states that while booby eggs are only about two-thirds as large as hen's eggs they are but little inferior in quality. There might be a market in this country for the booby product.

Celebrated Armorers.

In olden times the armorers' work was not out of a rough and ready description, but generally bore the signs of highly wrought workmanship. The various pieces of a suit fit into their positions to a nicety, there are no rough edges, and as a rule very little that is merely careless decorative work. Fashion and reputation have left their hall mark on the armor of each period, and like most other industries it has its distinguished masters. The name of Jacob Topf is, for example, still famous in England, and such names as those of Lorenzo Colman of Augsburg, a German armorer of the sixteenth century, Lucio Pincino, a Milanese, and the Wolfs of Landsbut, a family of armorers that are supposed to have worked for Philip II. of Spain, are celebrated in their own countries.

Before Arising.

Never jump out of bed with a hop, skip and jump if you have any regard for your heart. Oh, yes, it is all right to have the spirit and the feeling that you can do it; but don't. Take a lesson from the cat. Begin by stretching the entire body while lying flat on the back. Tense your arm muscles, leg muscles, abdominal and back muscles, chest muscles. First tense, then relax; tense again and again, following each tensing or stretching with a complete relaxing. This increases heart action gradually. (It has been working on half time all night unless you have retired with a stomach full of undigested food), and at the same time, cause arterial distention in the most natural and effective manner. This is in full accord with physiological law.

Fortune From Watercress.

Mrs. James is said to have amassed a fortune of \$400,000 by selling watercress at Covent Garden market, London. Mrs. James has been selling watercress ever since she was five years old, beginning with two small baskets. "Hard work is the secret of success," Mrs. James declares. "I stand out in the open every morning from three o'clock till ten, and after that I have to look after the fresh cut watercress which arrives from my farm by every passenger train. Study your customers, never disappoint them, give them the best and you must succeed." Mrs. James has a handsome house in London, a house in the country, a watercress farm, and keeps a motor launch.

Elaborate Apology.

"What do you mean by waving that red flag and stopping the train?" asked the irate engineer. "You wrong us," replied Meandering Mike. "We was holdin' a little meetin'. What you saw was de pow an archist version of de Chautauque ballet."

Sent out a Reward.

The police today received a reward of \$25.00 for the return of a chief yeoman of the U. S. S. Marietta who is said to be somewhat mixed up in his accounts aboard the vessel where he acted as postmaster. The man wanted has been gone since Friday last.

Lot of Lumber Coming.

Thirty-five thousand feet of New England country pine arrived at the yard today as one of the general store shipments. This lot is the first of \$50,000 feet which the government purchased recently at Riceville, N. Y.

business he received many warm greetings from his comrades and friends.

CITY NEWS

The board of public works are at present the busiest of any of the city officials in their attempt to meet the water situation before the heated season arrives. The board certainly have something to consider when it undertakes to provide water for commercial purposes. It is a proposition which the city must meet quickly. The fact that the city is to advertise and write business firms here on its advantages to be shown in a book-form, the matter of water is the first to be considered by any manufacturing firm that should care to locate here.

There is much talk of a strike among the engineers of the Boston and Maine railroad and other roads of the East for higher wages. This may or not be the sentiment of engineers at other points of the Boston & Maine, but at present the majority of the locomotive engineers who put up or work at Portsmouth are against any such plan. They believe that the grievance between the company and the Brotherhood can be brought to a settlement on terms other than a strike.

It is certainly astonishing how many places of business have sprung up on Daniel Street within the last two years. Stores of all kinds have located between Market Square and Linden street with more to come. The latest addition will be a fish market in the building next to the Parbox Express company.

The residents of the West End will shortly have another grocery store in that section to be located on or near Willard Avenue. The store will be conducted by G. H. Joy who will soon begin the erection of a building for this business.

The improvements around the outside of the custom house and post office will be the best expenditure of money the government has made in years. The curbing that encloses the lawn and the brick of the sidewalk will be sold at auction. The only long looked for improvement that still is on the shelf is an elevator. However it may come some day. That it is not in place long before now is no fault of the custodian of the building.

QUIETLY OBSERVING HIS ANNIVERSARY

M. H. Bell of Myrtle Avenue, a veteran of the Civil war is today quietly observing his 68th anniversary of his birth. At his place of

EDISONIAN THEATRE.

Wednesday and Thursday we offer what is without exception the greatest array of photoplay features ever seen. It has always been our aim to give to our patrons the very best kind of an entertainment in the picture line, those who have not seen our new pictures miss the best part of our bill. Some of the features are: The Worth of a Man. The story, the deformity of a college student provokes the ridicule of his fellow scholars. But he proves his worth as a man by successfully performing difficult operations at the risk of his own life and that of his patient. A very pathetic picture.

"The Tenderfoot's Sacrifice," drama. A Western Fowl, a feature western picture.

A Charitable Young Lady, drama. For Thursday, Friday and Saturday, we have secured "The Denay's" The greatest European novelty act, in this country.

All the latest in illustrated song hits.

If you have any favorite song you would like to hear, kindly leave the name of it at the box office and it will be sung at the earliest date.
